SUMMARY

Full Stack Software Engineer with **2+ years of experience** building scalable web applications. Skilled in React, .NET Core, AWS services, and Electron, with hands-on experience in microservices, serverless architectures, and cloud. Strong problem-solver focused on delivering efficient, user-friendly, and secure software solutions to meet requirements.

SKILLS

- Data Structures & Algorithms, OOP
- React, Redux, HTML, CSS, Bootstrap, Tailwind
- ASP.net, MySQL, SQL Server, MongoDB
- AWS Cloud Services, Git, CI/CD Pipeline
- C,C++, C#, JavaScript, Typescript, Python
- REST APIs, Microservices, Event-driven systems, Design Patterns, Distributed System
- Problem-solving & Debugging
- Strong Communication & Task Prioritization

EDUCATION

JAHANGIRNAGAR UNIVERSITY

BSc in Computer Science and Engineering

Feb,2018 - May,2023 | CGPA: 3.47

JAHANGIRNAGAR UNIVERSITY

MSc in Computer Science and Engineering

May,2023 - June,2024 | CGPA: 3.54

EXPERIENCE

KAZ SOFTWARE

Associate Software Engineer (Nov,2023 - Oct,2025)

Software Engineer (Nov,2025 - Present)

- Developed and maintained responsive front-end interfaces with **React (TypeScript), Redux, and Bootstrap**
- Performed Debugging and troubleshooting frontend issues, ensuring optimal performance
- Designed, implemented, and debugged back-end microservices using **.NET Core**, providing well-structured and secure **REST API** endpoints
- Implemented scalable serverless and microservices-based solutions using wide range of **AWS services**
- Contributed to building an **Electron**-based Windows desktop application and background service that automated scheduled tasks
- Assist integration of third-party ERP solutions into internal systems, ensuring seamless data synchronization and workflow automation

PROJECTS

DECENTRALIZED HEALTH RECORD SYSTEM

github.com/Fahim-ju/Decentralized-Health-Record-System

It is a blockchain based distributed medical record keeping system on Ethereum Platform. I used **Solidity**,**Truffle**, **ReactJS**, **Metamask** in this project.

TEAM PROJECT - WRITE-IN

github.com/alif-cse-ju/write-in-SWE-project

It is a blogging site developed with **HTML**,**CSS, Bootstrap, JavaScript, Nodejs**. We followed **MVC** software design pattern and managed **git wiki**.

PROGRAMING SKILLS

- Solved over **1200+** problems on different online judges
- Participated in more than **5** inter-university Programming Contests
- Ranked **4 th** out of 48 teams in **MBSTU** Inter Department Programming Contest 2019
- Ranked **40 th** out of 84 teams in **DUET** Inter University Programming Contest 2019
- Ranked **64 th** out of 161 teams in **SUST** Inter University Programming Contest 2019
- Ranked **7 th** out of 86 persons in **Cub Hunting Programming Contest** 2019
- Codeforces highest rating: **1442 - Specialist** (handle: Nahian_fahim)
- Codechef highest rating: **1598** (handle: fahim 27)

CERTIFICATION & OTHERS ACTIVITIES

AWS CERTIFIED CLOUD PRACTITIONER

Provided by Amazon Web Services

Issued: July 2025 | Expires: July 2028

MUJIB 100 IDEA CONTEST 2021

My proposed idea to digitalized all patients information in blockchain based system reached second round.

EVENT ORGANIZING MANAGER

June, 2021 - January 2022

Led and coordinated multiple in university, developing skills in leadership, teamwork, time management, and communication
